NB380 - PRODUCT OVERVIEW

The NB380 is a compact walk-behind scrubber-dryer with a brushless brush motor and a low-noise vacuum motor. This professional equipment is highly efficient and energy-saving. It has a longer service life and low maintenance costs.

// Features and benefits

- Compact size with a cleaning width of 380 mm, making it easy to work in narrow areas.
- Low energy consumption control system. A full charge can run the machine for 1h30 - 2h with a standard 24V/32AH lead battery.
- Intelligent, waterproof control panel, one-button start, adjustable water volume, user-friendly design for ease of use.
- Products can be used in warehouses, shopping centres, workshops and other locations, with a wide range of application scenarios.
- Die-cast aluminium squeegee frame, good rust prevention and better water suction performance. The water skirt effectively prevents waste water splashes and controls clean areas.
- The clean water tank is separate, making cleaning and maintenance easier.
- The entire squeegee system can be dismantled without tools, making it easy to change the squeegee blade.

The loop brush has been replaced by a simple, practical brush. The front water guard is designed to prevent water splashing out while brushing. The V-shaped squeegee prevents waste water from overflowing.

Integrated, waterproof touch panel, quick and easy to use

NB380 - PRODUCT FEATURES

Foldable handle for reduced storage space.

Low energy consumption control system. A full charge can run the machine for 1.5-2 hours on a standard 24V/32AH lead-acid battery.

// The basis of cleanliness

The NB380 combines high performance and ease of use in a compact design. With a working width of 380 mm, floors can be cleaned quickly, efficiently and thoroughly using a disc brush or pad.

Numerous thoughtful details help users in their daily work. For example, the ergonomic design, the easy access to all the components for daily maintenance, and the lid on the solution tank filler neck to help you measure out cleaning chemicals.

Technical specifications

1	Model		NB380
2	Rated power	W	530
3	Rated power of brush motor	W	380
4	Suction motor power rating	W	150
5	Suction capacity	kPa	>10
6	Voltage (DC)	V	24
7	Sound pressure level	dB	65±3
8	Dimensions (L*W*H)	mm	700 x 430 x 1200 mm
9	Brush speed	RPM	180
10	Solution/recovery tank capacity	L	10 L / 10 L
11	Cleaning path	mm	380 mm
12	Cleaning productivity	m²/h	1140
13	Brush/pad diameter	mm	380
14	Continuous operating time (12V32AH*2)	h	1,5 à 2
15	Battery compartment size (L x W x H)	mm	290 x 185 x 190 mm
16	Gross weight (with batteries, empty tank)	kg	58,5
17	Number of brush discs		1 disc
