NB460 - PRODUCT OVERVIEW

// Overview

The compact NB460 walk-behind scrubber is easy to manoeuvre. It offers all the speed, precision and ease of use needed for better floor cleaning.

// Features and benefits

With its lightweight and ergonomic design, the NB460 is ideal for confined spaces such as offices, shops and high-traffic environments. The intuitive, waterproof touch control panel is simple and reliable. The quiet ECO function makes it ideal for use in noise-sensitive areas.

The control button integrated into the handle allows you to activate and stop the brush instantly. This ensures safe use, even in crowded spaces. The 680 mm cast aluminium floor nozzle effectively vacuums along walls and in narrow passages. Its PU rubber strip is resistant to oils and chemicals.

The waste water tank opens wide and can be removed without tools. This makes daily maintenance easier for the user. The floor nozzle adjustment mechanism ensures consistent wiping on all types of surfaces. The brush plate has an automatic balancing system that adapts to uneven floors.

The battery compartment holds two 12 V / 100 Ah batteries that provide up to 6 hours of autonomy. The angle of the machine can be adjusted for separate water suction. The brushless suction motor, available in 150 W, 220 W or ECO mode, offers high efficiency with reduced consumption.

The 30 L tanks meet the needs of most professional environments. An optional storage basket makes it easy to transport cleaning products and accessories.

NB460 - PRODUCT FEATURES

The intuitive, waterproof control panel is simple and reliable. It features a silent ECO function suitable for noise-sensitive environments.

The button on the handle allows the brush to be activated or stopped at any time. This prevents damage to the floor and reduces the risk of accidents.

The 680 mm cast aluminium floor inlet ensures precise suction along walls and in narrow passages. Its PU rubber strip is resistant to oils and acids.

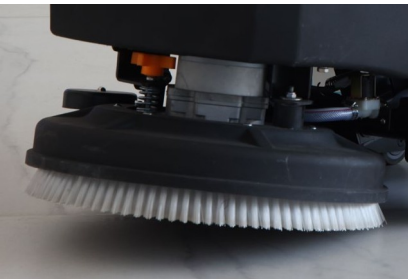

The tilting waste water tank has a large opening and can be removed without tools. This makes cleaning and maintenance easy.

The floor nozzle adjustment mechanism ensures optimum suction on all types of surfaces.

The spacious battery compartment can accommodate two 12 V / 100 Ah batteries and offers 5 to 6 hours of operating time.

The brush deck has an adjustable balancing system that adapts to uneven to maintain consistent performance.

An optional storage basket makes it easy to transport accessories and cleaning products.

// Sectors of activity

Food and beverages

Transport

Warehouses and logistics

Service cleaning

Real estate

Research scientific and health

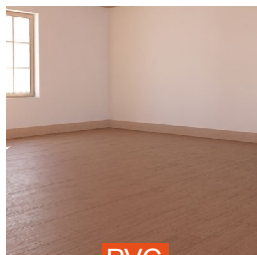

Sales

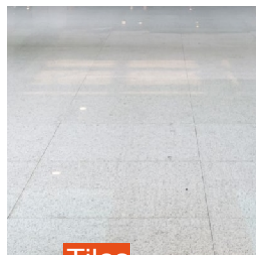

Hotel and supermarkets

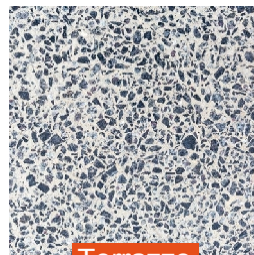

// Compatible soil types

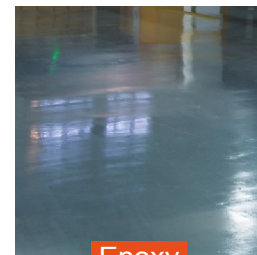

PVC

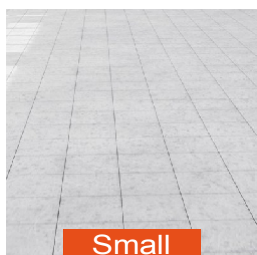

Tiles

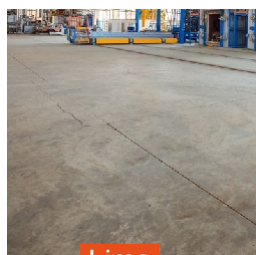

Terrazzo

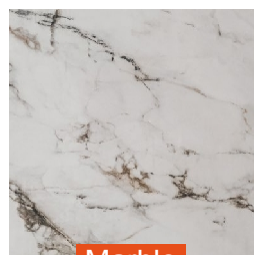

Epoxy

Small tiles

Lime

Marble

Impact-resistant to impact

Depending on the situation, it is recommended to use a brush or a pad holder tray:

	Brush			Pad holder tray		
	Soft brush	Nylon	Hard brush	White	Red	Black
Concrete		Applicable	Applicable		Applicable	Applicable
Terrazzo		Applicable	Applicable		Applicable	Applicable
Tiles	Applicable	Applicable			Applicable	
Marble	Applicable	Applicable		Applicable	Applicable	
Plastic	Applicable			Applicable	Applicable	
Rubber	Applicable			Applicable		

Notes:

- 1. Soft brush: for cleaning and polishing smooth surfaces.
- 2. Nylon brush: for general floor cleaning (integrated configuration)
- 3. Hard brush: for removing stubborn dirt from hard floors
- 4. Pad holders: to hold the coloured pads in place and reduce wear on the floor

Different coloured pads should be chosen depending on the different floor conditions. The darker the colour, the greater the friction on the floor.

Pad application conditions:

- a) White pad: for general cleaning and polishing of marble and smooth floors.
- b) Red pad: for general cleaning of all types of floors
- c) Black pad: for removing stubborn stains from hard floors

Applications for rubber squeegee strips:

	Rubber	Polyurethane
Concrete	Applicable	Applicable
Terrazzo	Applicable	Applicable
Tiles	Applicable	
Marble	Applicable	
Plastic	Applicable	Applicable
Rubber	Applicable	Applicable

Note:

Polyurethane suction strips are highly resistant to wear and oil. They are ideal for oily floors, but are not suitable for concrete, brick or tiled floors.

Technical Specifications

1	Model		NB460
2	Nominal power	W	70
3	Brush motor power	W	4
4	Brushless suction motor power	W	220/150 (ECO)
5	Suction power, negative pressure	kPa	>10.5 / 9 (ECO)
6	Brush pressure	kg	To be confirmed
7	Battery	V/Ah	(2x12V) 24V/100Ah
8	Noise level	dB	65 ± 3
9	Machine dimensions (L x W x H)	mm	990 × 450 × 1050
10	Brush disc motor speed	rpm	1
11	Clean/dirty water tank capacity	L	25
12	Working width	mm	46
13	Working efficiency	m ² /h	1840
14	Brush disc diameter/needle seat	mm	460
15	Net weight of machine (excluding battery, empty water tank)	kg	5
16	Operating time	h	5-6
17	Battery case dimensions (L x W x H)	mm	365 × 350 × 220
18	Gross weight of machine (including battery)	kg	120
19	Number and type of brush discs		1
