

NB100

COMPACT WALK-BEHIND SCRUBBER-DRYER

Robust
design

High
performance

Easy
maintenance

Why choose between price and quality when you can have both !

NB100 - PRODUCT OVERVIEW

The NB100 is a compact, ultra-efficient and environmentally-friendly walk-behind industrial scrubber-dryer designed for deep cleaning of hard floors. Thanks to its compact size and dual counter-rotating brushes, it effectively removes stains, while reducing manual effort and consuming less water and detergent. Compatible with all water-based detergents, it meets the varied needs of users.

// Features and benefits

- Compact scrubber-dryer, ideal for tight spaces.
- Brushless brushes+ suction motor: low noise, high efficiency, energy savings, long life, reduced maintenance.
- Large-capacity tanks: clean water (4 L) / waste water (6 L), with 3 flow and brush speed settings to suit different needs.
- Low-energy consumption system: 36V 12Ah lithium battery providing over 1? hours of autonomy on a single charge.
- Robust, rust-resistant cast aluminium chassis and vacuum system.
- Quick and easy installation and removal by magnetic attachment of the brush discs.
- Easy replacement of the suction blade, which can be removed without tools.
- Easy cleaning and maintenance thanks to separate tanks for clean and waste water.
- Foldable handle: saves space, simplifies transport and storage.

The folding handle design saves space, making transport and storage more convenient.

The integrated waterproof touch panel makes operation simple and intuitive.

The die-cast aluminium chassis and suction system are durable, rust-resistant and provide excellent suction performance.

Equipped with brushless scrub brushes and a vacuum motor, the NB100 guarantees low noise, high efficiency, energy savings, long life and low maintenance costs.

NB100 - PRODUCT FEATURES

// Efficient cleaning in confined spaces

The NB100's intelligent cleaning system is designed specifically for small spaces, with three key benefits:

- 1/ Deep cleaning: dual brushes remove stubborn stains and leave floors spotless.
- 2/ Enhanced safety: intelligent water control reduces the risk of slipping.
- 3/ Visual aesthetics: quickly restores the appearance of the floor and improves the perceived quality of the space.

// Cleaning challenges with the NB100 compact scrubber-dryer

In high-traffic areas such as shopping centres, cleaning can become complex due to limited space. Thanks to its compact and flexible design, the NB100 scrubber-dryer easily negotiates obstacles to enable effective deep cleaning, while minimising disruption to customers and day-to-day operations.

Wet floors increase the risk of slipping. Thanks to its high-efficiency, low-water consumption cleaning technology, the NB100 scrubber-dryer limits dampness and allows floors to dry quickly, ensuring a rapid return to safe, walkable conditions and reducing the risk of accidents.

Technical specifications

1	Model		NB100
2	Cleaning width	mm	425
3	Clean water tank capacity	L	4
4	Recovery tank capacity	L	6
5	Cleaning productivity	m ² /h	800
6	Autonomy in continuous operation	h	1,5
7	Suction motor power	W	150
8	Product dimensions (L x W x H)	mm	380 x 525 x 1155 mm
9	Noise level	dB	65
10	Gross weight	kg	18,5
11	Lithium battery	V/Ah	36/12
