# NB530 - PRODUCT FEATURES

The NB530 walk-behind scrubber is a brand new scrubber with a compact design for a variety of applications. It is suitable for small and congested areas such as shopping centres, offices, stations, hotels, hospitals, etc. The scrubber has been carefully designed to improve productivity and reduce cleaning costs.

## // Features and benefits

- The large opening of the dirty water tank on the recovery tank with a removable lid provides easy access and is ideal for daily cleaning and maintenance by the user.
- The intuitive control panel provides simple ease of use.
- The large filling tank located at the front of the scrubber allows for quick and easy water refilling.
- The brush deck and floor nozzle are moulded from aluminium and then spray-coated, making them robust, durable and rust-proof.
- The brush pressure exerted on the floor is adjustable, allowing for a variety of uses to meet different floor cleaning requirements. This pressure is effective in a wide range of possible applications.
- The motor's noise level device reduces or increases battery life depending on its power.
- The efficient and reliable anti-foam mechanism, coupled with the tank water level control, significantly improves the service life of the scrubber's motor considerably.
- The scrubber drier starts with a single button: intuitive and easy to use.
- The brush is easy to assemble and disassemble thanks to a patented NOBLELIFT mechanism.

## Technical Specifications

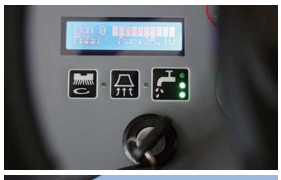
| | | | |
|---|---|---|---|
| 1 | Model | | NB530 |
| 2 | Cleaning diameter (brush diameter) | mm | 500 |
| 3 | Width of floor inlet | mm | 760 |
| 4 | Product tank capacity | L | 50 |
| 5 | Recovery tank capacity | L | 50 |
| 6 | Cleaning capacity (surface area/time) | $m^2/h$ | 1800 |
| 7 | Continuous working time | h | 3~4 |
| 8 | Min/max brush pressure | kg | 20.5 / 27.8 |
| 9 | Nominal motor power | W | 550 |
| 10 | Nominal power of suction motor | W | - |
| 11 | Nominal drive motor power | W | - |
| 12 | Travel speed | km/h | 0~6.5 |
| 13 | Noise level dB | A | 68±3 |
| 14 | Battery | | 24V (2×12V/100Ah) |
| 15 | Net weight (without battery) | (kg) | 89 |
| 16 | Product dimensions (LxWxH) | (mm) | 1220×540×1050 |

# NR530 - PRODUCT FEATURES

The NR530 ride-on scrubber is a new compact generation machine. It makes cleaning considerably easier than a walk-behind machine thanks to its speed of 6 km/h. The NR530 has a real impact in terms of productivity and cleaning costs.

## // Features and benefits

- This ergonomic and compact scrubber dryer has a patented, frameless, front-wheel drive design, making it lightweight with a small turning radius. Manoeuvring when turning around is easier in all confined spaces.
- The large tank is easily accessible, making water refilling quick and easy.
- The integrated buttons are waterproof. The settings displayed on the LCD screen are easy to read and intuitive to use. The data displayed allows for real efficiency during machine maintenance.
- Three speed modes are available and the water flow is adjustable. The cleaning result is optimal and completely safe for the user.
- The design is innovative with electric brush lifting and lowering. The floor nozzle is positioned using a single button. And when reversing, it is automatically raised.
- The brush deck and nozzle are moulded from aluminium and then spray-coated, making them robust, durable and rust-proof.
- On this model, the brush and floor nozzle are fitted and removed automatically. The dirty water tank is easy to open.
- The seat is equipped with automatic shut-off technology when the driver leaves the seat.
- The engine noise reduction system and ECO mode reduce the noise level of the equipment during use and optimise battery life (and therefore working time).
- The efficient and reliable anti-foam mechanism, coupled with tank water level control, significantly improves the service life of the scrubber-dryer motor.



| Technical Specifications | | | |
|---|---|---|---|
| 1 | Model | | |
| 2 | Cleaning diameter (brush diameter) | mm | |
| 3 | Width of floor inlet | mm | 780 |
| 4 | Product tank capacity | L | 70 |
| 5 | Recovery tank capacity | L | 70 |
| 6 | Cleaning capacity (surface area/time) | $m^2/h$ | 3100 |
| 7 | Continuous working time | h | 3~4 |
| 8 | Brush pressure | kg | 35 |
| 9 | Nominal motor power | W | 550 |
| 10 | Nominal power of suction motor | W | 550 |
| 11 | Nominal drive motor power | W | 400 |
| 12 | Travel speed | km/h | 0~6 |
| 13 | Noise level dB | A | 68±3 |

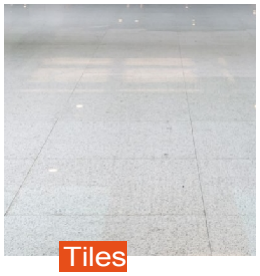
# NB530/NR530 - BUSINESS SECTOR

PVC

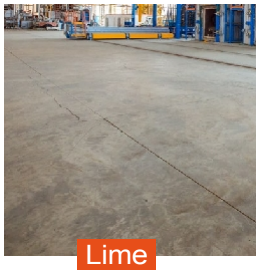


Tiles

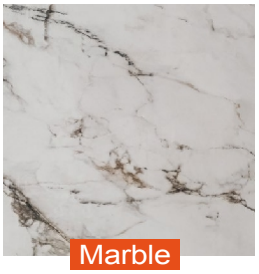
Terrazzo

Epoxy

Small Tiles

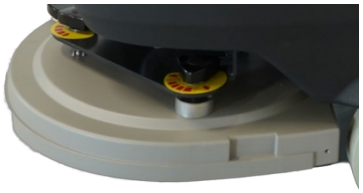


Lime



Marble

Impact-resistant impact



Depending on the situation, it is recommended to use a brush or pad holder tray:

| | Brush | | | Pad holder tray | | |
|---|---|---|---|---|---|---|
| | Soft brush | Nylon | Hard brush | White | Red | Black |
| Concrete | | Applicable | Applicable | | Applicable | Applicable |
| Terrazzo | | Applicable | Applicable | | Applicable | Applicable |
| Tiles | Applicable | Applicable | | | Applicable | |
| Marble | Applicable | Applicable | | Applicable | Applicable | |
| Plastic | Applicable | | | Applicable | Applicable | |
| Rubber | Applicable | | | Applicable | | |

Notes:

- 1. Soft brush: for cleaning and polishing smooth surfaces.
- 2. Nylon brush: for general floor cleaning (integrated configuration)
- 3. Hard brush: for removing stubborn dirt from hard floors
- 4. Pad holder: for holding coloured pads and reducing floor wear

Depending on the different floor conditions, different coloured pads should be chosen. The darker the colour, the greater the friction on the floor.

Conditions for using pads:
a) White pad: for general cleaning and polishing of marble and smooth floors.
b) Red pad: for general cleaning of all types of floors
c) Black pad: for removing stubborn stains from hard floors

Applications for the rubber scraper strip:

| | Rubber | Polyurethane |
|---|---|---|
| Concrete | Applicable | Applicable |
| Terrazzo | Applicable | Applicable |
| Tiles | Applicable | |
| Marble | Applicable | |
| Plastic | Applicable | Applicable |
| Rubber | Applicable | Applicable |

Note:

The polyurethane suction strips are highly resistant to wear and oil. They are ideal for oily floors, but are not suitable for concrete, brick or tiled floors.

# APPLICATIONS

Food and beverages

Transport

Warehouses and logistics

Property cleaning

Real estate

Research scientific and healthcare

Sales

Hotel and supermarkets
